

# Fact Attack

## A game for 2 players

### You'll need:

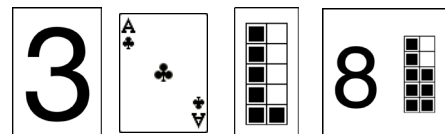

- Four or more sets of cards

### How to play:

1. Shuffle the cards and deal all of them to the two players.
2. The players put their piles in front of them, face down.
3. The players turn over the top card at the same time and adds the numbers as quickly as possible.
4. The player who says the sum first and explains how he got the answer gets both cards.

### Who wins?

When all the cards have been turned over, the player with the most cards wins.

### Teacher Notes:

Students can use 0-10 cards, playing cards with the face cards removed, ten-frame cards, or transition cards with both the ten frame and the numeral on them. If you use playing cards, you might want to use a marker to turn one of the face cards or the joker into a zero.
