GENERAL QUESTIONS

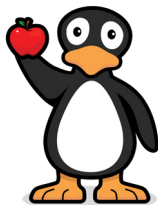

- What did you like most about ST Math Summer Immersion?
- Do you feel more ready for the school year?
- Have your feelings about math changed? If so, explain.

REFLECTION POSTER

- How did you determine what to put on your poster?
- What is something you learned?
- What was something that was challenging?
- What surprised you most when you looked back and saw all the work you had done?
- What do you want someone who reads your poster to know about the work you did this summer?

MATH GAME

- What is the name of your game?
- How did you come up with your game?
- What math concept is your game about?
- How do you play your game?
- What math are you asking the players to figure out?
- What did you learn when creating this game?
- Are there obstacles/challenges in place to make the game more challenging and interesting?
- How does a player win? Can multiple players win? What if there is a tie? Is there more than one way to win?
- What do you hope players get out of your game?
