

# Facilitating Questions

In ST Math®, the puzzles start off simple and then get more challenging as the student progresses. When they reach a challenging problem, they may ask for your help.

To help them, ask questions like:

- What do you notice?
- What do you think you have to do?
- What can you click on?
- What the strategy are you going to use?
- What do you expect to happen?
- What happened? Was it what you expected?
- What did you learn?
- How will you use what you learned?

*If your child continues to be stuck and does not know what to do, have them play a previous level. Ask, "What did you learn from the previous level that can help you in this new level?"*
