

**LOCATION:** Vietnam (Son Doong Cave)

### **DID YOU KNOW?**

The Son Doong Cave in Vietnam is the largest cave in the world. It's home to many unique plants and animals, and it even has its own river, forest and weather system! The underground river flowing through the cave cascades over several waterfalls that can be heard for miles. Aleki once watched a movie that was filmed in the Son Doong Cave, and ever since then, he has dreamed of visiting! How many days would it take to explore the Son Doong Cave?

I think it would be so cool to play my drums in the cave someday!
