

What did you learn from
today's Puzzle Talk?

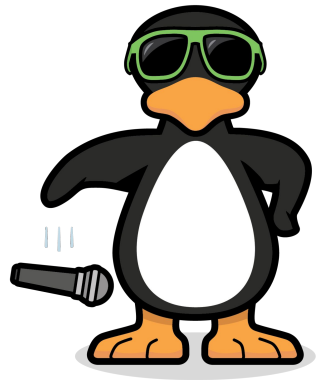

How does this relate to what
we've learned this year?

Write a word problem that
matches this puzzle.

What was the most surprising or interesting strategy shared?

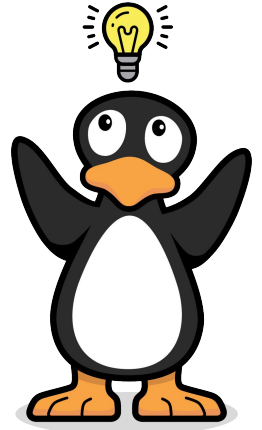

Which strategy did you find
most efficient? Why?

Where else might you use these strategies in math or real life?

What new strategy would you
like to try next time?

How did explaining your
thinking help you understand
the problem better?
