

JiJi to the TOP

Meet JiJi.

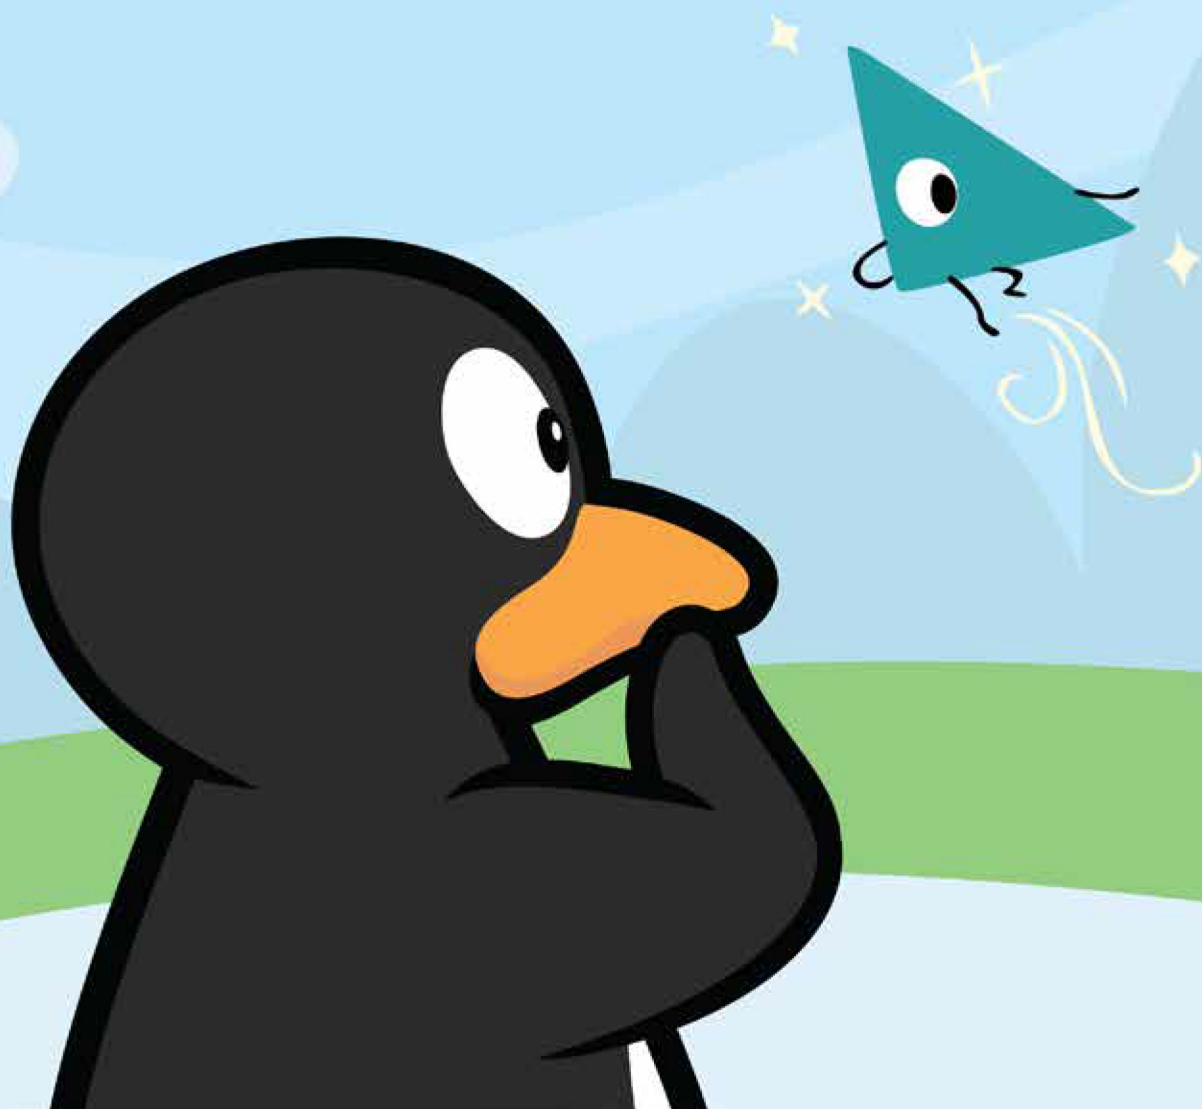

JiJi is a penguin with places to go.

These are JiJi's friends
who help along the way.

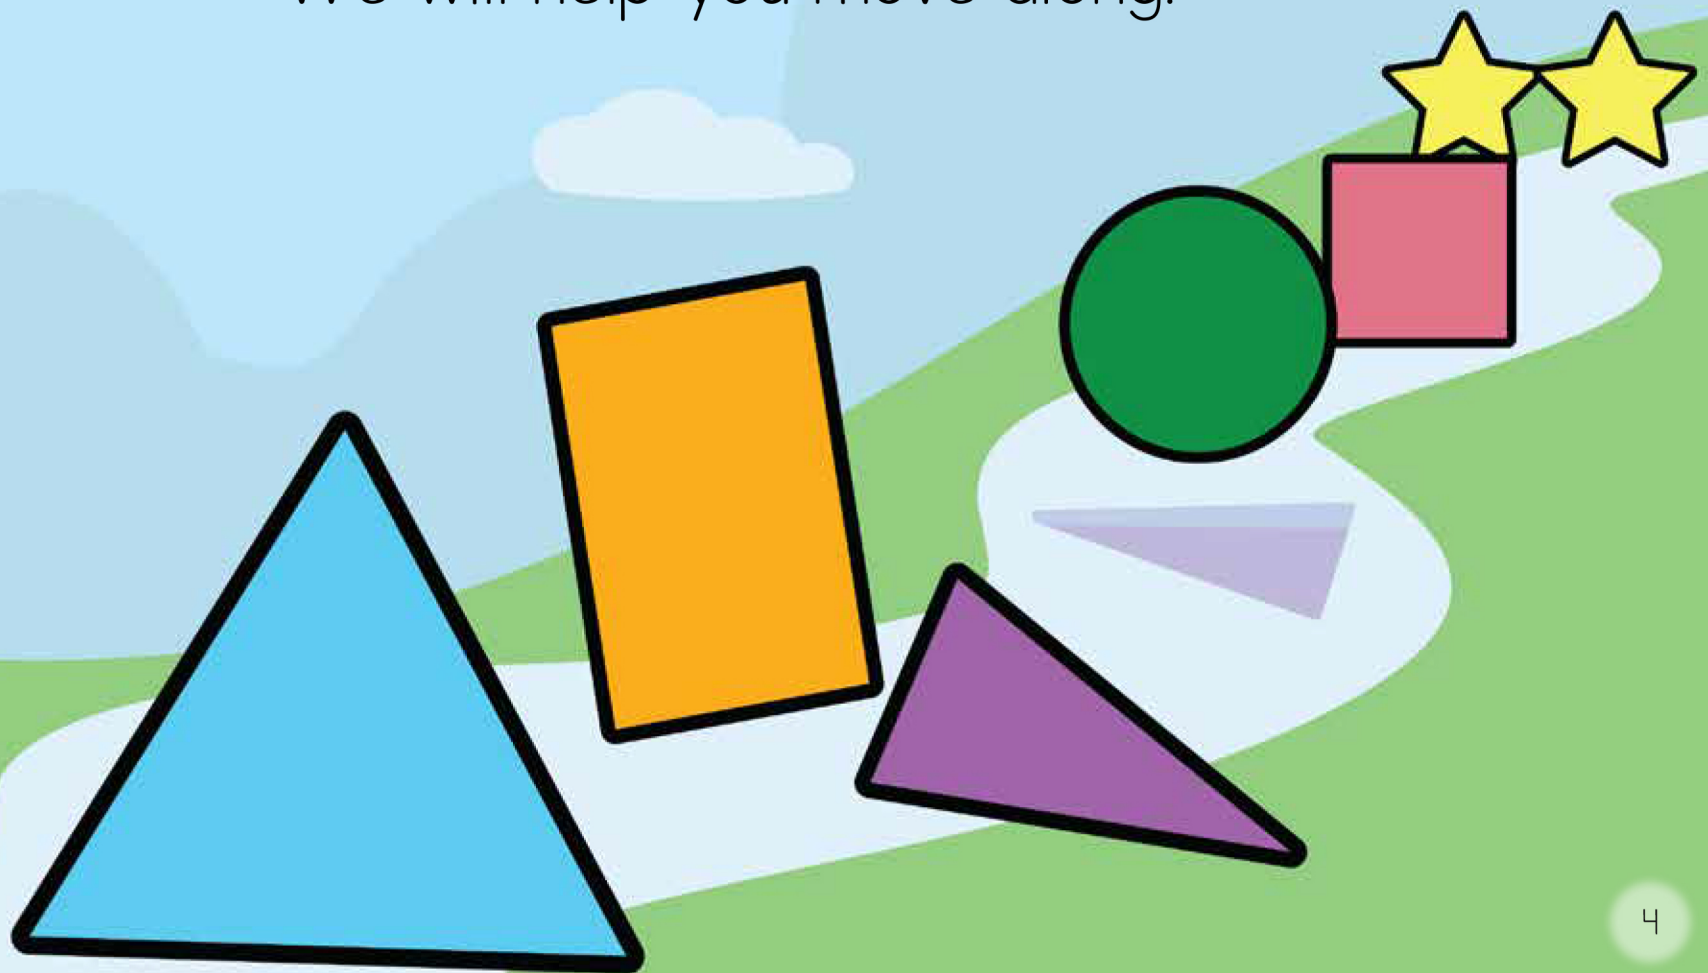

Sometimes there are things
on the path that make JiJi stop.

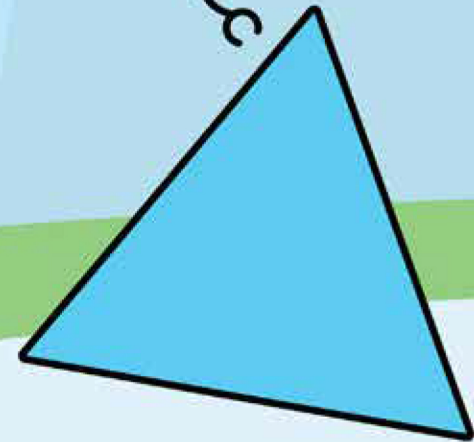

Do you see things on the path?

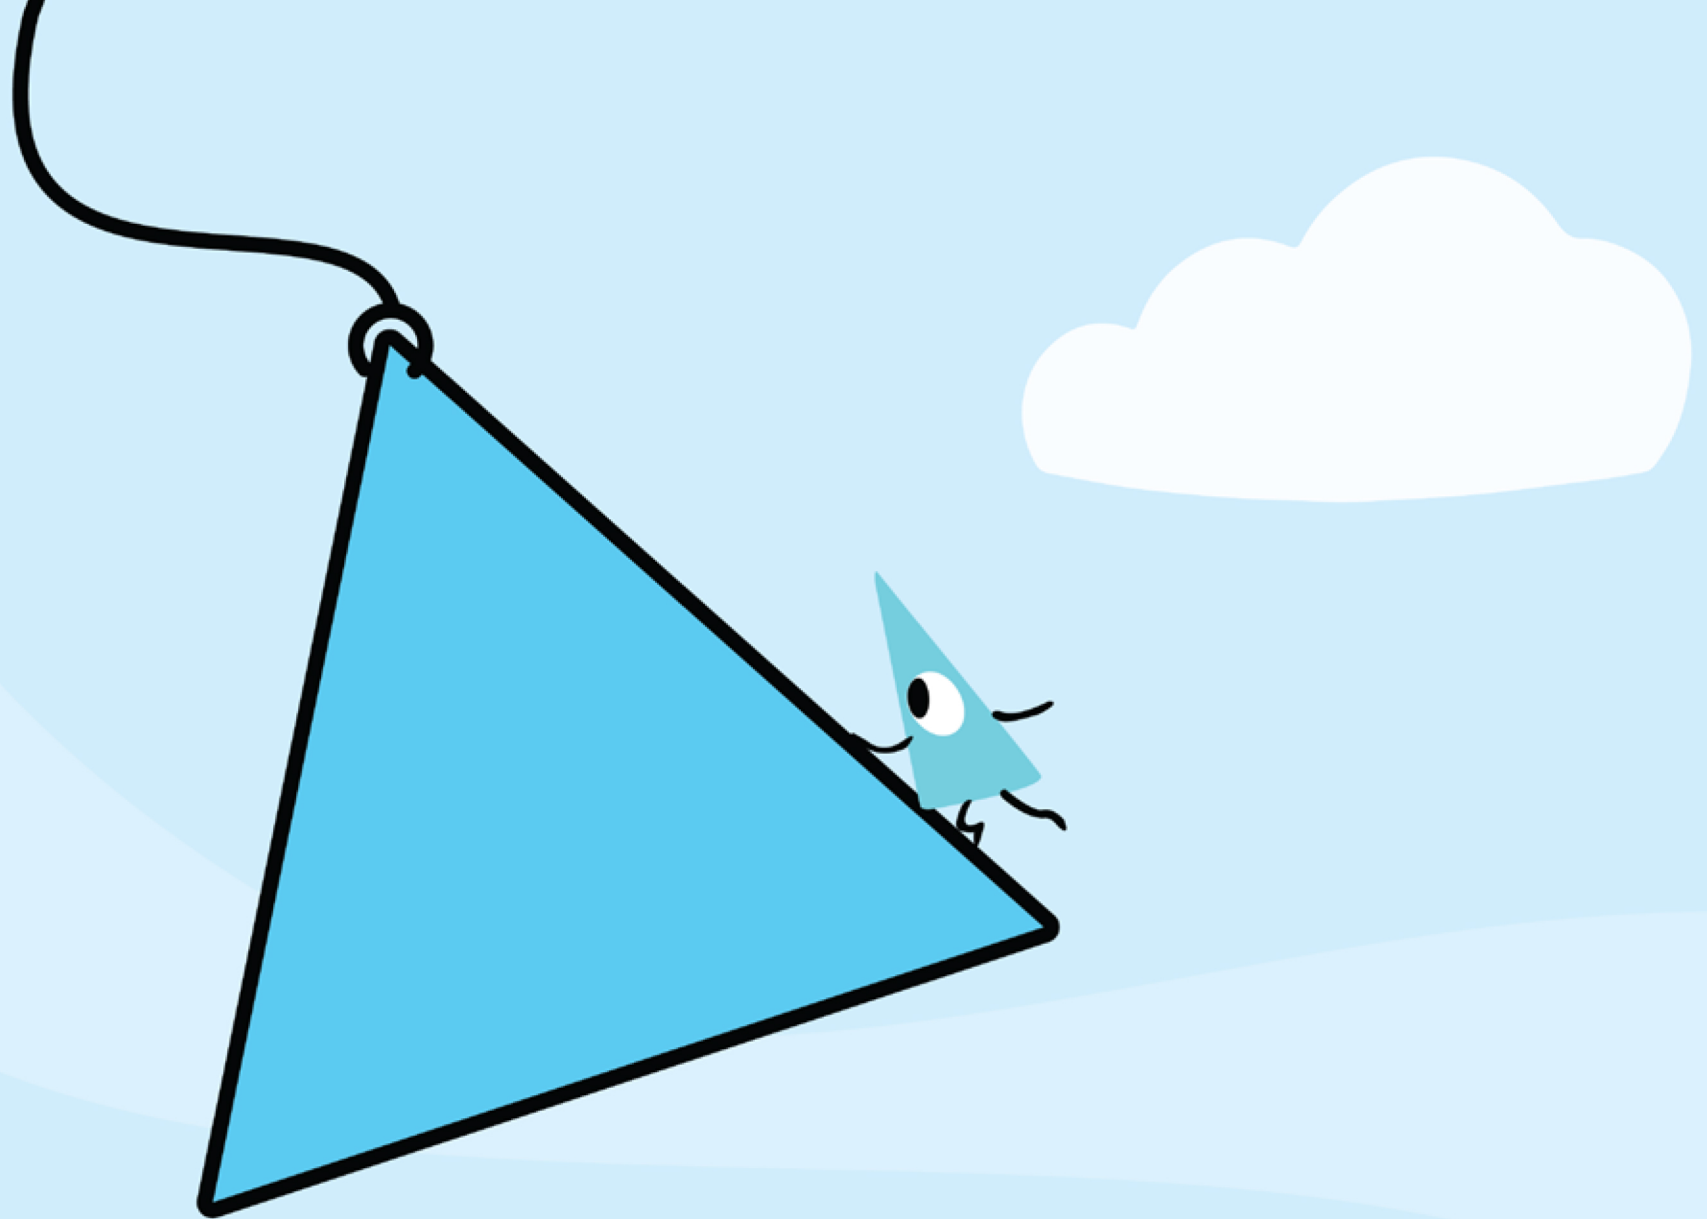

Don't worry, JiJi.

We will help you move along!

What is this first shape
in JiJi's way?

We can name it
and move it out of the way!

It is a
blue triangle!

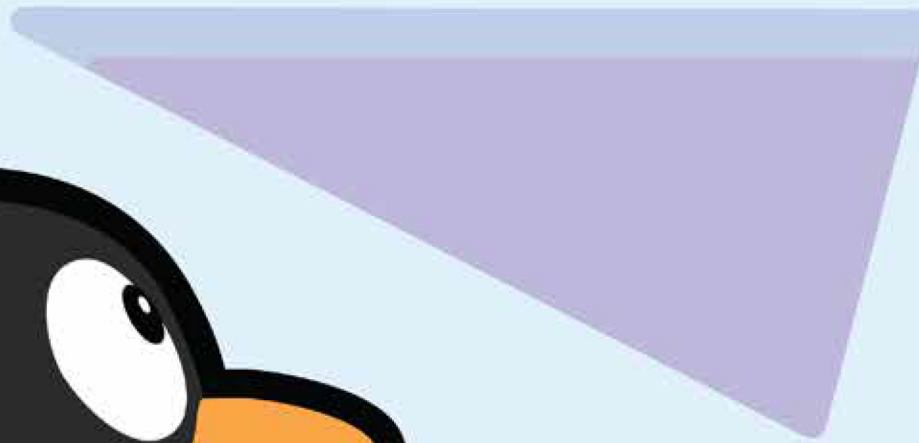

We have lifted the
blue triangle away.

JiJi can move along.

Oh no, part of the path is missing!
How can we help JiJi move along?

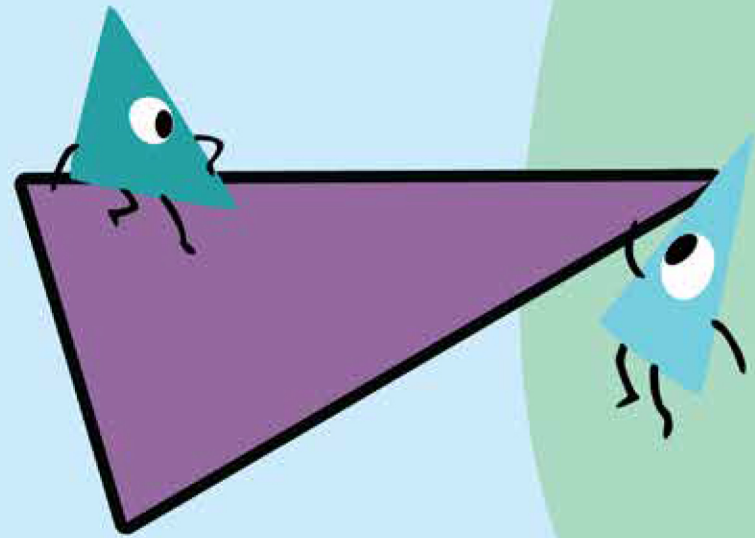

What shape fits here?

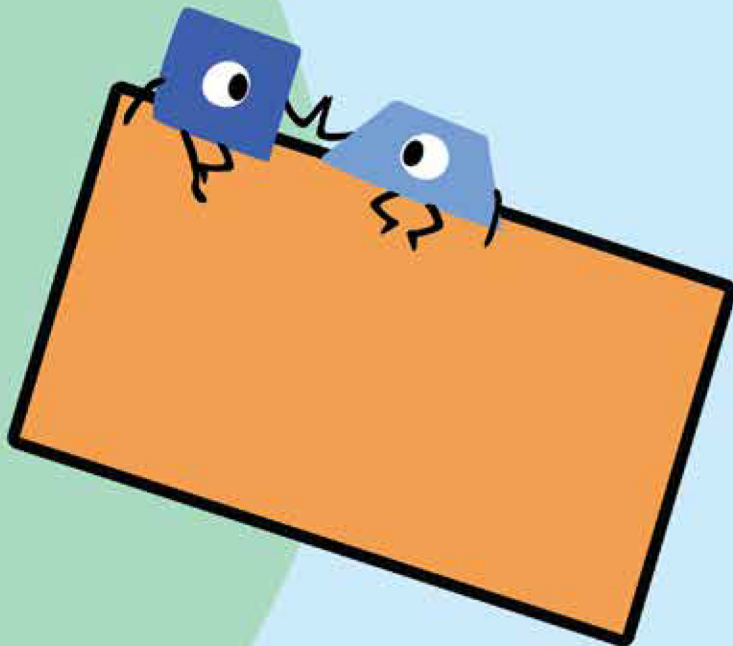

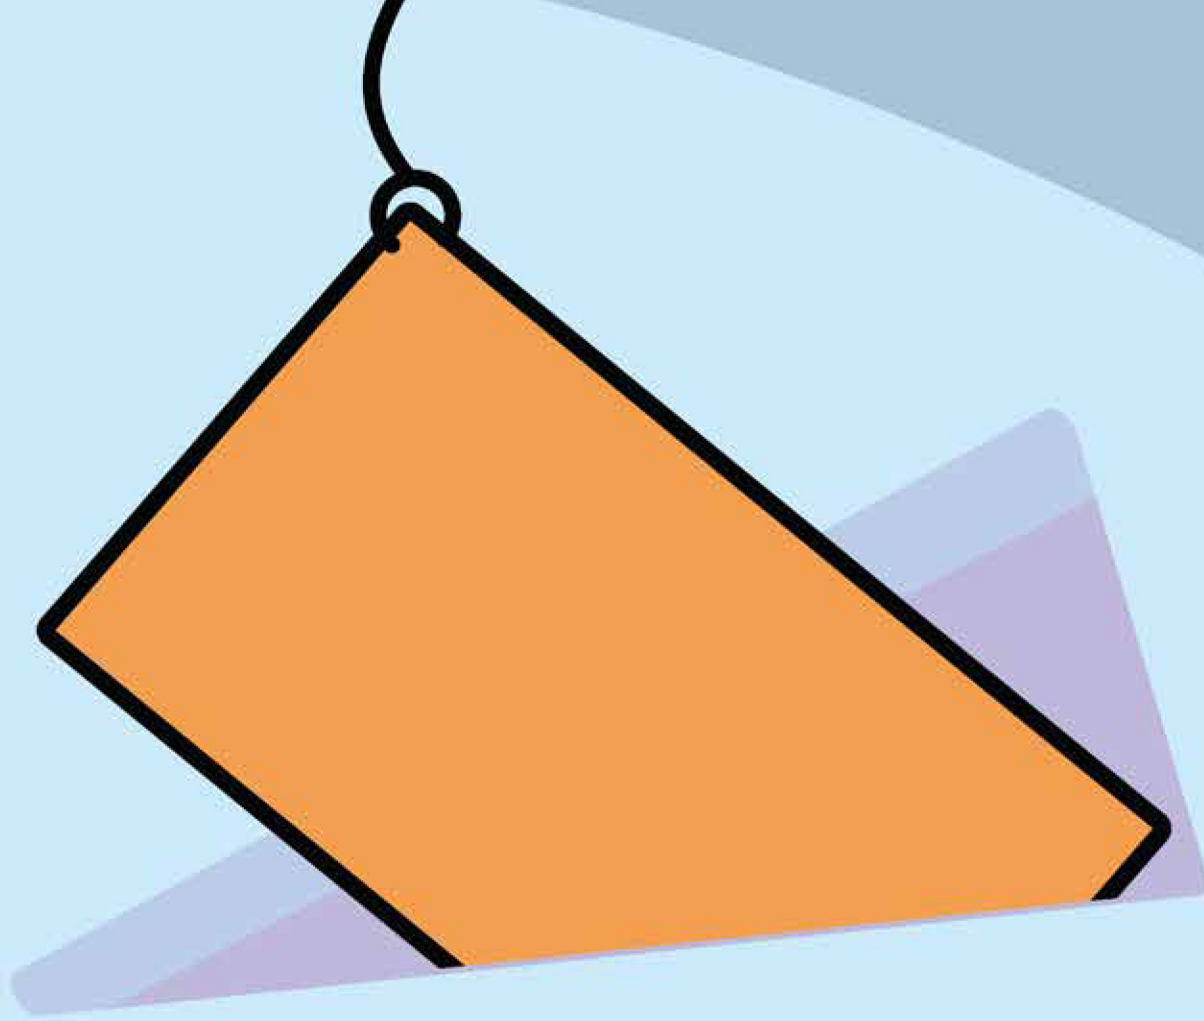

Maybe we can fill the path
with one of these shapes.

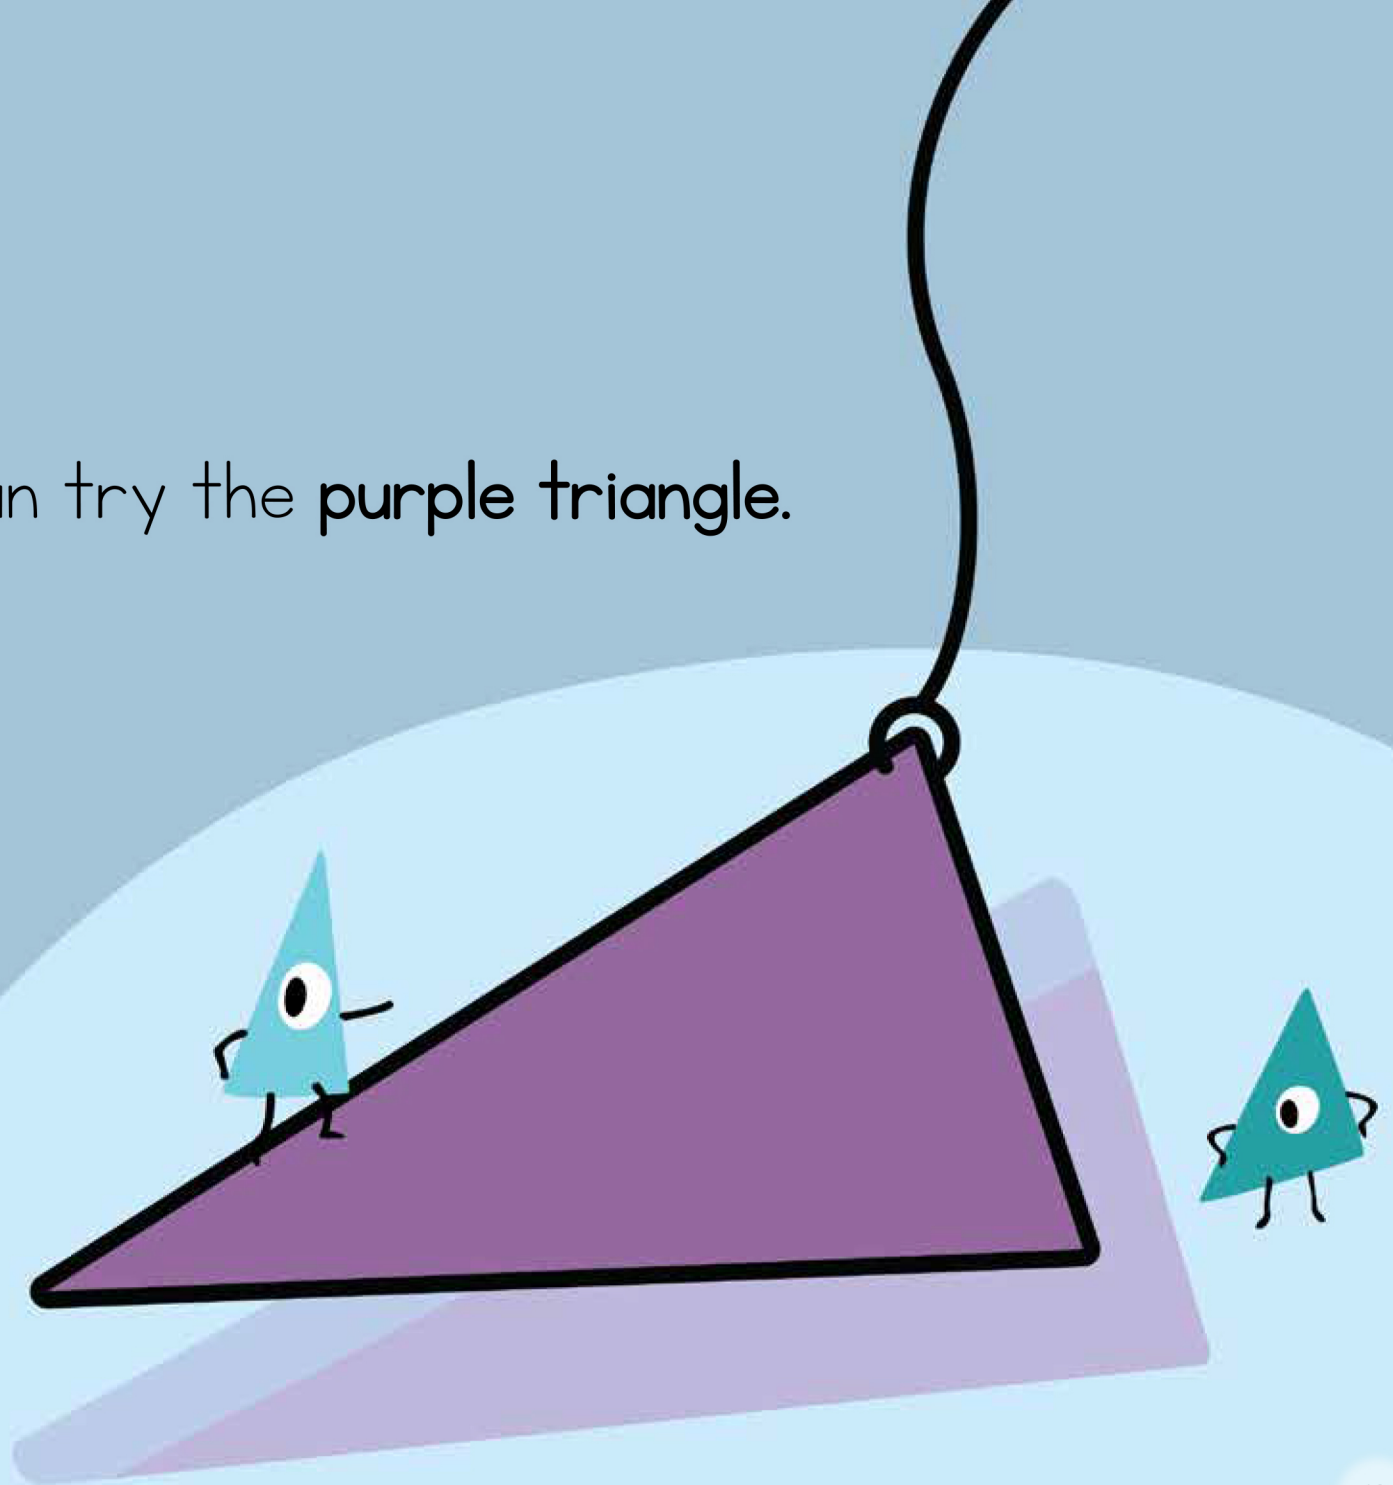

What are these new shapes?
Maybe one of these shapes will work!

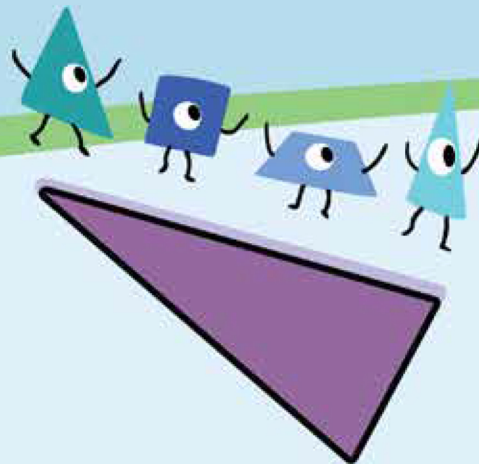

Not the **orange rectangle**!
It does not fit.

We can try the **purple triangle**.

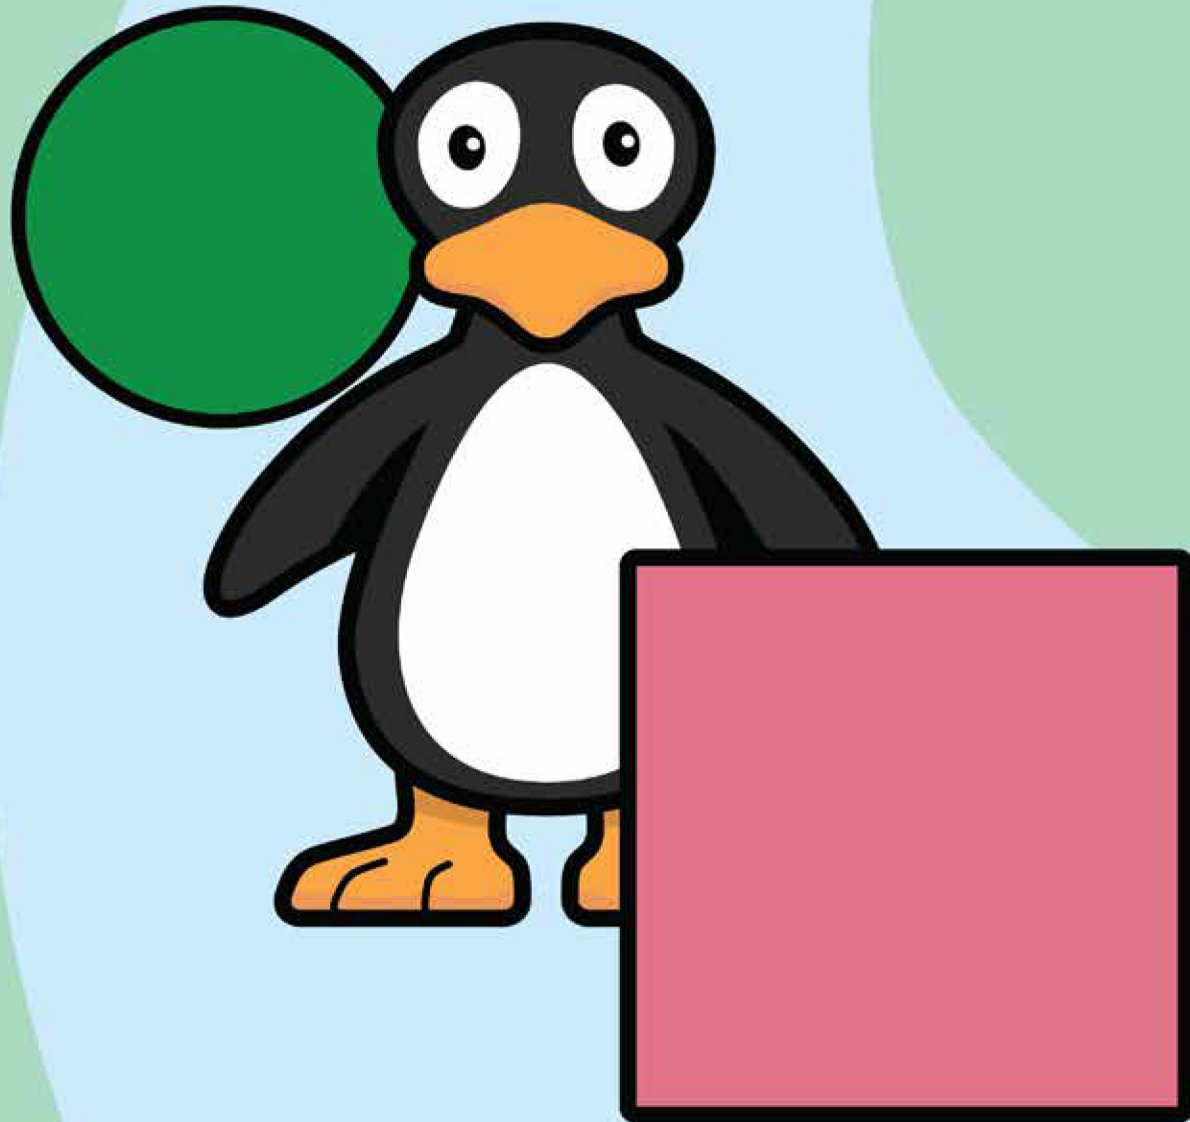

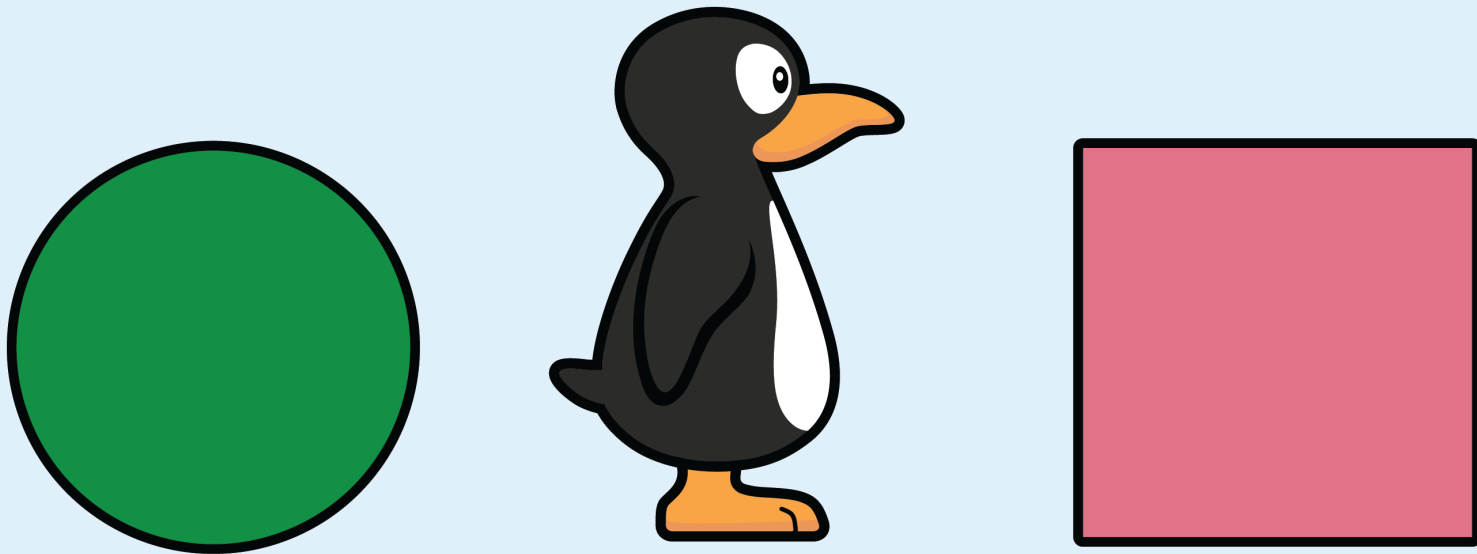

It fits! Yay! JiJi can go.
Go, JiJi, go!

What is the shape
in front of JiJi?

The **pink square** is in front of JiJi.

The **green circle** is behind JiJi.

We can try to move the **pink square**
out of the way.

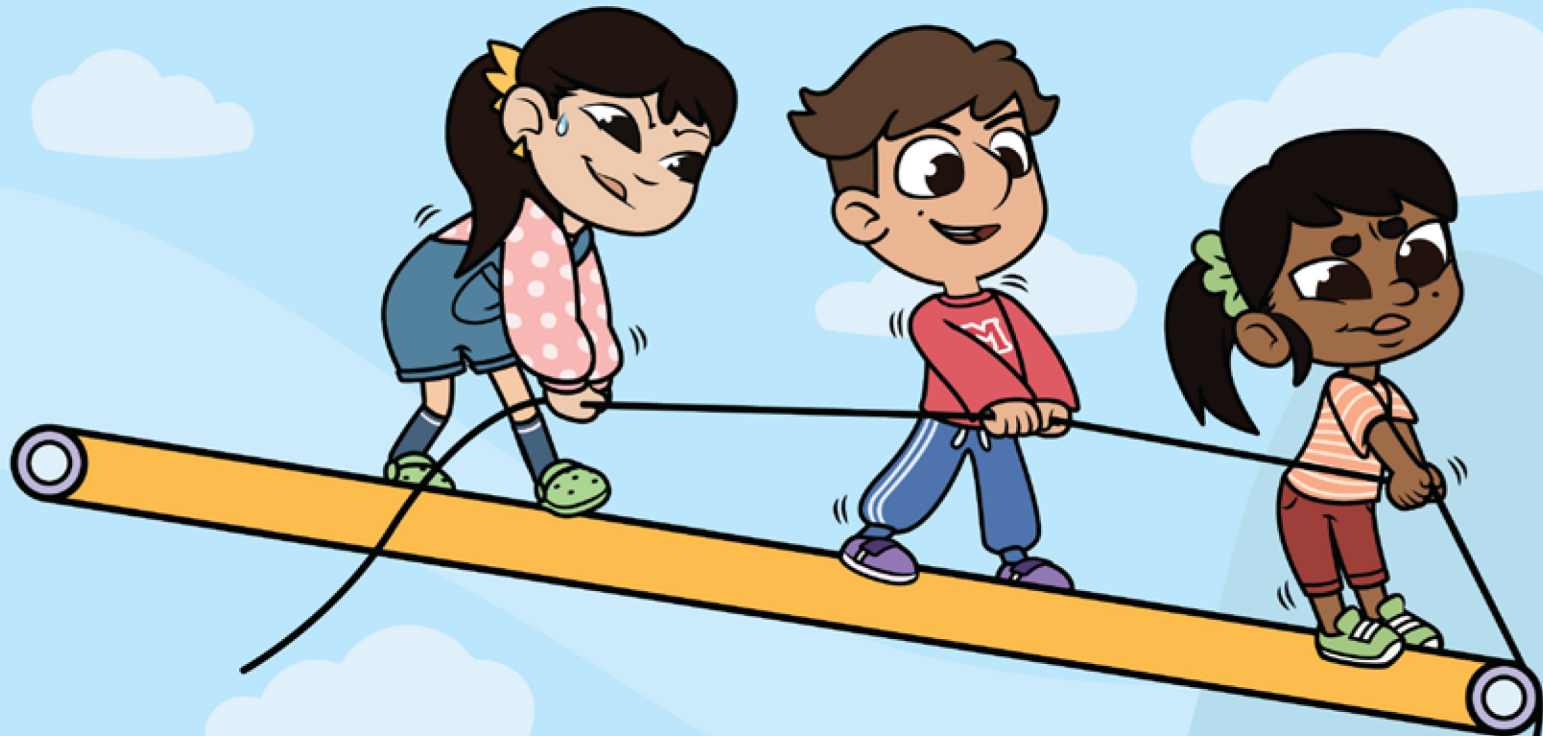

It worked.
Yay!

Go, JiJi, go!

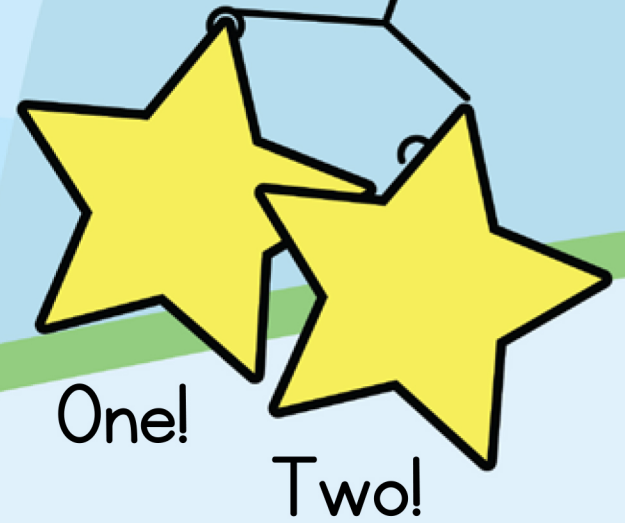

What shape is in JiJi's way now?
How many are there?

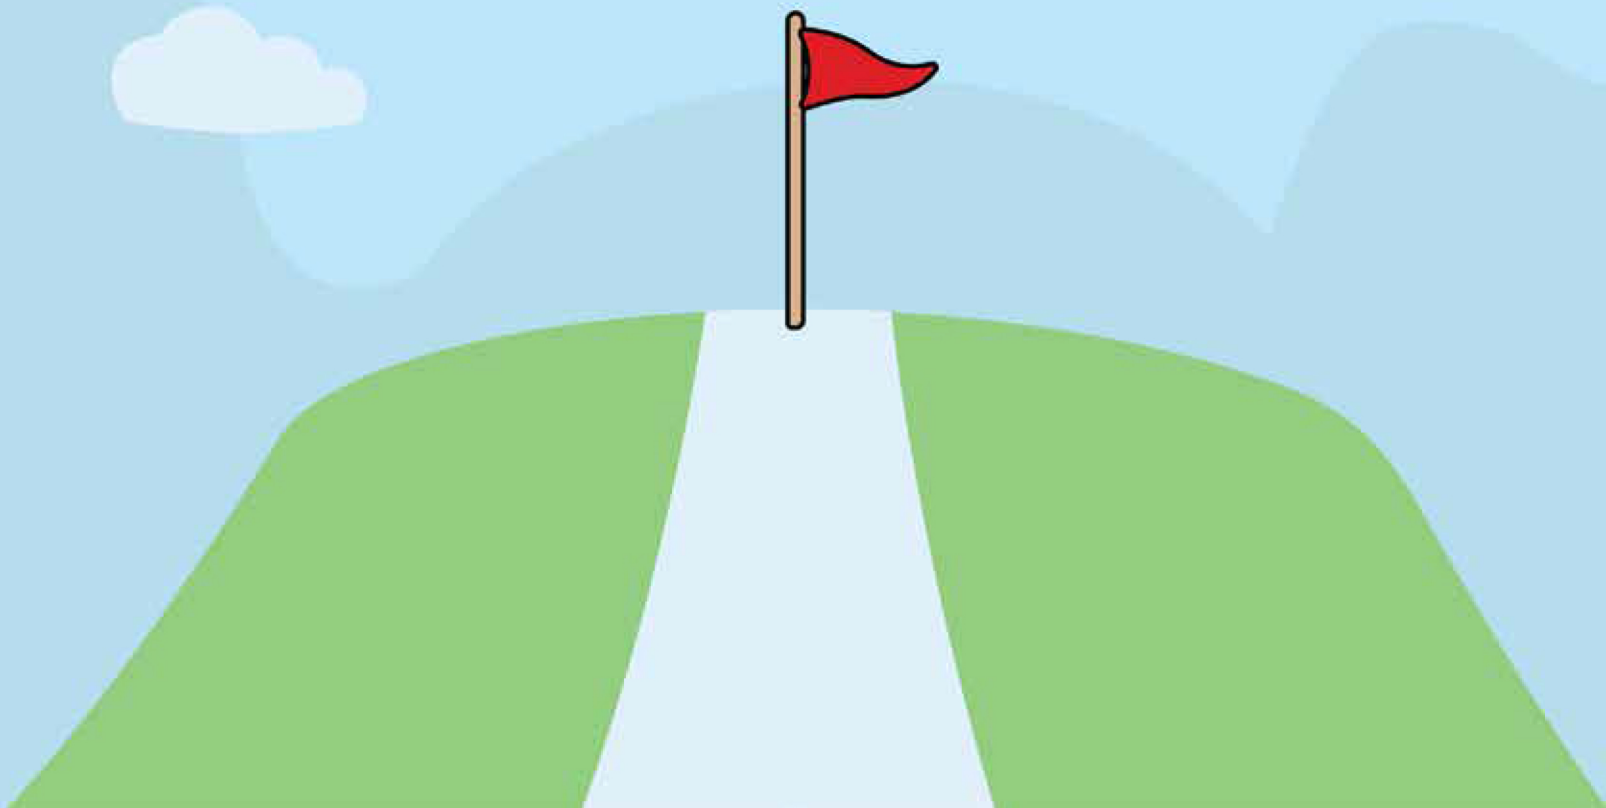

We can count with JiJi
and find out.

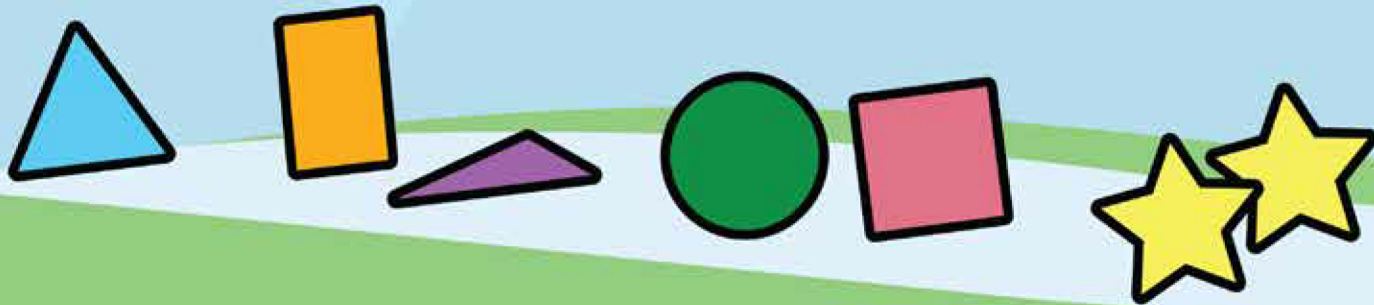

We moved
two yellow stars
out of the way.

Yay! Go, JiJi, go!
JiJi is going to the top!

Look at all the shapes JiJi left behind.

JiJi has come so far!

We all helped
JiJi get to the top!

You can help JiJi get to the top
just like we did.

THE END
